

**3eme Sexe**

**12" SINGLE VINYL**

**OSC<sup>ar</sup> - Night Tripper 01#** - NEW SINGLE VINYL + Digital Download

The first **12"** of a **triology** collection Exclusively produced for release in this years **Independent Label Week** 3eme Sexe - **Justin Schoening & Christelle Paris** - has in this release searched for a more electronic sound than, last years Cassette Box release - Beat Vol 01-04.

**No** more acoustic drums and **No** guitars - instead they fired up their huge collection of analog drum machines, analog synthesizers, claptraps, tape echoes, vocoders etc .

In order to minimize synthesizers played by any hand, and for securing a linearity in their production they where forced to sync all their analog gear up via **CV / GATE** which gives the records 3 tracks a nice continuative groove and ensure a good amount of randomness in the sequences arpeggiator synth sounds All in All - a remarkable **NEW 3eme Sexe release** - excellent for nightclubs & discoteque's
